

REMINDER FOR THE RESTORATIVE I COURSE

RESTORATIVE I REGISTRANTS & SUPERVISING DOCTORS

The rules for the Expanded Function Permits are overseen by the Missouri Dental Board (MDB). The Missouri Dental Association's (MDA) expanded functions curriculum is approved by the Missouri Dental Board as well as the Missouri Dental Association is an approved expanded function course provider.

The delegable functions for Restorative I are listed below.

- Sizing and cementing of prefabricated crowns
- Placing, condensing, carving and finishing amalgam for Class I, V and VI restorations
- Placing and finishing composite for Class I, V and VI restorations
- Minor palliative care of dental emergencies (place sedative filling)

As noted, these include both amalgam and composite restorations. Any student taking this course will be required to do prework that includes amalgam restorations. This means amalgam capsules, instruments used to place, condense and carve amalgam, as well as a triturator are needed to complete the prework modules. In addition, the rule requires that the MDA both teaches and tests on amalgam restorations during our clinical sessions.

We understand that not all dental practices utilize amalgam restorations today. But in order to take this course, the student will be required to practice before the clinical session, complete amalgam restorations during the clinical session and test to competency as well. Students are expected to come to the clinical session with all of the prework completed.

Included in this registration packet is an order form to purchase a small quantity of amalgam capsules, if needed, as well as a list of recommended instruments for amalgam restorations.

RESTORATIVE I REGISTRATION PACKET

Registration Process

1. Select an available EFDA clinical course date for the Restorative I course.
2. There are **THREE** forms (provided in this packet) that must be completed and turned in for registration:
 - a. EFDA Registration Form
 - b. EFDA Supervising Doctor/Assistant Signature Sheet
 - c. EFDA Waiver
3. **PLEASE PROVIDE A VALID PERSONAL EMAIL THAT YOU HAVE CONSISTENT ACCESS TO.** MDA staff will send correspondence to you via email and mail to provide you with overview materials and login information.

Online Review Time Period

1. The Restorative I course opens 6 weeks prior to the clinical course date.
2. Auxiliaries are required to review all materials in the modules accordingly and then determine, independently, readiness for the clinical course (and continue study if needed).

Pework & Prerequisites

The Restorative I course also has a prerequisite Anatomy & Morphology Exam. Successful completion of this 76-question exam (with an 80% passing grade) is a prerequisite to attend the hands-on, clinical course for Restorative I. The exam may be taken at any time during your review period, as long as it is successfully completed 1 week prior to the clinical course. In addition, students will be sent four restorative preparations by mail to practice with. Auxiliaries must first review online modules and then must proceed to completing the mandatory prework.

Clinical Session and Competency Exam

PLEASE NOTE: This is not a comprehensive Restorative I course. Auxiliaries attending should have some experience and be familiar with the general practice of restorative procedures. Because this course is **ONLY ONE DAY**, a prepared auxiliary will do better in both understanding the concepts of the clinical skills and actually performing those skills at a passing competency level in order to receive certification.

1. After online course and prework completion, the next step is to come to the scheduled clinical session.
2. **Clinical Session:** Auxiliaries will be coached and will practice the Restorative I expanded function procedures during the clinical session. This includes coaching the auxiliaries by leading discussions, giving tips and techniques to improve their skills and guiding them in performing the expanded functions. The trainers will answer questions and provide feedback. Auxiliaries may practice as needed throughout the day before grading for the competency exam.
3. **Competency Grading:** Throughout the day, at the completion of each section of the training, the auxiliary will complete each expanded function procedure for a grade. **While this course is not difficult for a well-prepared auxiliary, we find those who have little experience in restorative procedures, and do not come with proper preparation, may struggle to show minimal competency with certain functions and thus may need to remediate in order to pass the course.**

Cancellation/Substitution/Transfer/Refund Policy

- Cancellations made **PRIOR** to the suggested registration deadline: Course fee refunded less \$100 cancellation fee.
- No refunds will be made after the deadline and/or access to online coursework is given/packets have been mailed.
- Cancellations made **AFTER** the suggested registration deadline: Course credit issued and may reschedule for a new course/date with a \$200 transfer fee.
- Another employee may be substituted at no additional charge before the final registration deadline.
- **No substitution/credit/transfer will be provided to any registrant who does not show up to a scheduled course without notification of the MDA.**

COURSE REGISTRATION INFORMATION

Restorative I

Clinical Session Date

Course Location: All courses held at the Clinical Training Center, 3340 American Ave, Jefferson City MO 65109.

Most courses include short lunch/break; please note any dietary restrictions.

RESTORATIVE I REGISTRANTS & SUPERVISING DOCTORS ONLY

This form **must be read and completed** by both the auxiliary and supervising dentist and included with registration **BEFORE** dental auxiliary enrollment is accepted for an upcoming **Restorative I** course.

FOR THE SUPERVISING DENTIST:

I, Dr. _____ [Full Name of Supervising Dentist], attest that at the time of registration for this course, I provide direct supervision of _____ [Full Name of Dental Auxiliary] for any current auxiliary duties and those related to expanded functions, including mentoring for clinical course training and future delegation once permitted. I attest that I have read the [Missouri Dental Board Chapter 2, General Rules, 20 CSR 2110-2.001](#) related to Expanded Functions, specifically: (1) Definitions of “Direct supervision” and “Expanded functions permit” (4) Expanded Functions Permits, (5) Categories, and (7) Delegated Acts.

With an understanding of these Rules, I attest I am the dentist providing direct supervision to this dental auxiliary while they perform their delegated clinical functions within my practice. I understand that should it be requested for any reason related to this EFDA course training, I may be asked to verify such.

The Restorative I EFDA course teaches delegable functions, some that are technique sensitive and may be difficult for your dental auxiliary. This is especially true if your auxiliary has no prior background in restorative procedures. PLEASE NOTE: This is not a comprehensive course in restorations. The auxiliary you are sending should have some experience and be familiar with the general practice of restorative procedures. This course is a specific focus on the Restorative I Expanded Functions as designated by the Missouri Dental Board. **Therefore, we require substantial preparation and practice by auxiliaries prior to the clinical course to help ensure positive outcomes at the clinical session, which includes competency testing.**

The Restorative I course also has a prerequisite Anatomy & Morphology Exam. Successful completion of this exam (80% passing grade) is a prerequisite to attend the hands-on, clinical course for Restorative I. The exam may be taken at any time during the review period, as long as it is successfully completed 1 week prior to the clinical course.

____(Auxiliary Initials) *I am aware there is substantial prework required for the Restorative I course. I understand all prework restorations MUST be completed prior to the clinical course and MUST be graded by my supervising dentist. I will bring all completed prework to the clinical course. I will use my time accordingly to successfully complete the prework and come prepared to the clinical session/testing.*

____(Supervising DR Initials) *I am aware my auxiliary will need substantial time to complete the required prework. I will ensure they are allowed time for clinical course/test preparation.*

Your auxiliary will be emailed information/links to prerequisite online coursework and will receive a package by mail that includes four restorative preparations. **We strongly encourage you both to review and discuss this information and the online coursework modules.** This discussion is beneficial so your auxiliary can engage you in any related questions about the skills prior to the actual clinical session. The more prepared they are, the better she/he will understand the concepts of the clinical skills and perform those skills at a passing competency level. There are several components to complete the online coursework and prework to be fully prepared for the clinical session and competency testing, including:

Online Coursework

1. **PRESENTATIONS:** Slideshow presentation and video; completion of the presentation and viewing of the videos are required.
2. **QUIZZES:** Multiple choice questions pertaining to each module; quizzes are to be completed but are for auxiliary’s practice and self-evaluation only.
3. **SKILLS STANDARDS:** Listing of criteria used to assess auxiliary’s competency at the clinical course and competency exam.

Hands-On Prework

Upon course registration, students will be sent four restorative preparations via mail:

1. Two preparations to perform placement of amalgams and composites.
2. One preparation to complete sedative filling procedures.
3. One preparation to trim, crimp and cement a stainless-steel crown (provided by MDA).

If mentoring of the student by the employing/supervising dentist has not started already with the online modules, we encourage the dentists to oversee the placement, shaping and carving of amalgams and composites prior to EFDA candidates attending the clinical portion of the Restorative I module. Although there are many ways to achieve quality restorations, please follow the online module demonstrations in performing placement of amalgams and composites. A typodont is not sent for the Restorative I course, but you can mount in a typodont if you have one or mount in plaster as well. You will need to bring the finished restorations to the clinical course.

____(Supervising DR Initials) *I will coach my auxiliary during completion of the prework exercises in preparation for this course. I will provide guidance to my auxiliary to ensure preparedness for the clinical session and exam.*

____(Supervising DR Initials) *I will use the skills standards sheets to evaluate the prework completed by the auxiliary.*

During the clinical session and competency grading, procedures will be performed on a typodont that has been mounted on a dental chair. The auxiliary will be required to use a mouth mirror to perform maxillary restorations with indirect vision. She/he should practice the prework restoration placement and finishing using indirect (dental mirror) vision as the typodont is oriented like a patient's head is oriented. It is not permissible to work on the typodont that is opened up on a flat surface. A typodont and chair mount will be provided at the clinical session.

Conclusion

Our goal in providing this information is to help you understand the importance of your role as the supervising doctor and how your interaction, coaching and mentoring before the clinical session and exam is critical to the success of your auxiliary. While this course is not difficult for a well-prepared auxiliary, we find those who have little experience with restorative procedures, and do not come with proper preparation, may struggle to show minimal competency with certain functions and thus may need to remediate in order to pass the course. An auxiliary *must commit to spending the time necessary* in completing both the online curriculum and required prework to be prepared for successful completion of the clinical session and exam.

Even with successful Restorative I course completion; the supervising dentist is ultimately responsible for the outcomes of the EFDA delegation! You must continue coaching your auxiliary and only delegate Restorative I skills when you are assured your auxiliary can perform them with the same safety and efficacy as you.

- Licensed dentists are responsible for all patient care, even if rendered by a permitted EFDA practicing under direct supervision. **A dentist is NOT required to delegate any expanded functions.**
- Licensed dentists are responsible for determining the appropriateness of delegation, as you consider the EFDA skill level, task difficulty, and nature and condition of the patient.
- **As the supervising dentist, you should always check the work of an EFDA before releasing the patient.**
- For questions about an EFDA delegable procedure as defined in the Dental Practice Act, contact Brian Barnett at the Missouri Dental Board (573-751-0040).

MDA EFDA – ASSUMPTION OF RISK, RELEASE AND WAIVER OF LIABILITY AGREEMENT

In consideration for the services provided to me by the Missouri Dental Association (“MDA”), including, but not limited to, allowing me to enroll and participate in the Expanded Functions Dental Assistant (“EFDA”) program as a student, I hereby agree to the terms and conditions as outlined below in this Assumption of Risk, Release, and Waiver of Liability Agreement (“Agreement”).

1. I acknowledge that my participation in MDA’s EFDA program entails known and unanticipated risks, which could result in physical or emotional injury or damage to myself or my property. I understand that MDA has taken steps to minimize risk but that some risks simply cannot be eliminated.

2. I expressly agree and promise to accept and assume all of the risks, known and unknown, existing in the EFDA program. My participation in the EFDA program is purely voluntary, and I was not forced or coerced into enrolling or participating in the program.

3. I, ON BEHALF OF MYSELF, MY CHILDREN, MY PARENTS, MY HEIRS, ASSIGNS, PERSONAL REPRESENTATIVE AND ESTATE, HEREBY VOLUNTARILY RELEASE, WAIVE, AND FOREVER DISCHARGE ANY AND ALL CLAIMS OF NEGLIGENCE AGAINST THE MISSOURI DENTAL ASSOCIATION, ITS BOARD OF TRUSTEES, AGENTS, OWNERS, VOLUNTEERS, PARTICIPANTS, EMPLOYEES, TRAINERS, GRADERS, AND ALL OTHER PERSONS OR ENTITIES ACTING IN ANY CAPACITY ON THEIR BEHALF (“AFFILIATES”), THAT RELATE IN ANY WAY TO ANY ACTIVITY I UNDERTAKE WHILE ENROLLED OR PARTICIPATING IN THE EXPANDED FUNCTIONS DENTAL ASSISTANT PROGRAM.

4. I further agree to indemnify and hold harmless MDA and its Affiliates from any and all claims, demands, causes of action, including attorney’s fees, arising from my negligence, or willful acts while enrolled or participating in the EFDA program. Should MDA or any of its Affiliates be required to incur attorney’s fees and costs to enforce this Agreement, I agree to indemnify and hold them harmless for all such fees and costs.

5. I agree to bear the costs of any personal injury or damage I may cause while enrolled or participating in the EFDA program. I certify that I am willing to assume the risk of any medical or physical condition I may have.

6. I acknowledge that enrollment and participation in the EFDA program does not guarantee that I will successfully obtain EFDA certification. I understand that I must complete the courses within the program to the satisfaction of the Trainers and Graders, in their professional judgment. I also acknowledge that even if I do successfully obtain my EFDA certification, it does not assure that I will obtain employment as a dental assistant. I agree to raise any concerns or complaints about grading or my completion of the EFDA program directly with MDA before filing a claim or bringing an action against MDA or its Affiliates based on these concerns.

7. This Agreement shall be governed by, and construed in accordance with, the laws of the State of Missouri, without reference to any choice of law provision therein. Venue shall be exclusively in the State of Missouri for any action or proceeding arising from or related to this Agreement. If any portion of this agreement is found to be void or unenforceable, the remaining portions shall remain in full force and effect.

By signing this document, I expressly state that I have had sufficient opportunity to read this entire Agreement. I further certify that I have read and understood it, and I agree to be bound by its terms.

I further acknowledge that this document contains a negligence waiver and indemnification provisions.
